This online activity was recorded in 2015 at the 10th Annual Meeting and Seminar.

MRI-Guided Gene Therapy

*MRI Continuing Education for MRI Technologists, Radiologic Technologists, and other Medical Imaging Professionals.*

**FACULTY**

Benjamin Timpauer, ARMRIT
Memorial Care Imaging Center
San Clemente, CA

**EDUCATIONAL OBJECTIVES**

At the conclusion of this activity, the learner should be better able to:

- Discuss the theory, applications, and techniques involved when performing MRI-guided gene therapy
- Identify the role of MRI-guided gene therapy, including thermo-mapping, nanotechnology, fMRI, and molecular MRI

**TUITION**

ICPME accepts American Express, Discover, MasterCard, and Visa.

Tuition for this course includes unlimited access to the course and your Certificate of Credit. Please note: tuition payments are non-refundable.

**HOW TO ENROLL AND PARTICIPATE**

Estimated time to complete this activity is 1 hour.

- Click **ENROLL NOW, CONTINUE** through the shopping cart, **CONFIRM ORDER**, and **ACCESS COURSE NOW**.
- Once you are enrolled, you can return to this course anytime by logging to your account at [icpme.us](http://icpme.us).
- To access the course, click on **MY ACCOUNT**, then click on the course title.

**HOW TO RECEIVE CREDIT**

- To access the posttest and evaluation, login to your account at [icpme.us](http://icpme.us) and click on the course title.
- Click the icons for **POSTTEST** and for **EVALUATION**.
- A passing grade of at least 75% is required to receive credit. You may take the test up to three times.
- Upon receipt of a passing grade, you will be able to print a certificate of credit from your account at [icpme.us](http://icpme.us).

Your online account serves as a permanent record of credit certificates earned through [icpme.us](http://icpme.us).
About the American Registry of Magnetic Resonance Imaging Technologists

Because MRI is a Specialty

Each year, American Registry of Magnetic Resonance Imaging Technologists (ARMRIT) holds an Annual Meeting and Seminar for the purpose of advancing the specialty of MRI Technology. The seminar is geared toward cutting-edge technology with an advanced but practical approach to everyday practice for MRI Technologists and all other Medical Imaging Technologists and Professionals who wish to further their craft and life-long learning.

The mission of the ARMRIT is to recognize individuals qualified as specialists and to promote high standards of patient care and safety in the diagnostic medical imaging modality of Magnetic Resonance Imaging (MRI) technology including: interventional MRI, cardiovascular MRI, functional MRI, and MR breast imaging.

ARMRIT is the first certifying organization to:
1. Recognize MRI technology as a distinct medical imaging specialty utilizing non-ionizing radiation.
2. Require MRI clinical experience and competency for eligibility.
3. Promote formal MRI education with MRI clinical training.
4. Recognize MRI schools that offer full-time educational programs that lead to a career in MRI.

The Registry is open to all qualified technologists in all imaging fields, provided formal education has been completed through schools dedicated to MRI technologists.
